S.P.R.I.Z., is the newest 4.0 Closed-Circuit Aspirator

Cutting-edge technology 4.0, innovative design, are just some of the countless features that distinguish our exclusive and brand-new closed-circuit aspirator for large volumes of biological liquids, **S.P.R.I.Z.**; a medical device whose acronym stands for: **safety - prevention - risk-zero- infections** that, due to its several advantages, will be the industry standard for the safe management of hospital fluid waste.

The ambitious project, with the aim to significantly innovate the line of our closed-circuit aspirators, was born to offer healthcare market a cutting-edge aspirator both in terms of technical features and functionality.

Our 4.0 closed-circuit aspirator, S.P.R.I.Z., will be premiered right in occasion of the World Forum for Medicine, Medica that will take place in in Düsseldorf from the 14th to the 17th of November 2022.

We invite you all at our stand (Hall 11- Stand E31) to discover and learn more about our new aspirator; kindly make an appointment with our Export Manager by sending an email to: c.longoturri@incas-srl.com
