

To celebrate its 30th anniversary, Rays has reserved an exclusive gift for visitors who will come to visit us at the booth 6 J04

GLOVELY/BIONATURE

respects the environment and protects the planet for future generations

Rays Spa is proud to present Bionature Gloves, specifically developed and formulated to biodegrade while maintaining their excellent performance parameters: high protection, comfort, grip and duration.

Bionature Gloves are manufactured in compliance with severe QUALITY STANDARDS required by the normative for examination and protection gloves.

BIONATURE BIODEGRADES IN 5 YEARS- 10 TIMES FASTER* THAN THE TRADITIONAL NITRILE GLOVES!

*in active landfill

In the realization of the product range, Rays took advantage of the long-time experience of its technical staff as well as that of leading companies in the international market. Thanks to the know-how achieved with its thirty years of experience, Rays is able to offer new top quality natural latex surgical gloves, identified by the HYDROFEEL

as well as NEW synthetic gloves in polychloroprene or polyisoprene, with the ULTRAPRENE SYNTHETIC® brand.
